

## Italian regulations for pharmaceutical companies

---

Any pharmaceutical companies producing drugs in Italy, and participating as sponsors or exhibitors at this event, must be registered at the Italian Ministry of Health.

Application to participate to the Biliary Fibrosis: Pathophysiology and translational opportunities 2023 must be presented to the Italian Ministry of Health at the **latest 70 days prior** to the beginning of the event. Applications after this deadline date will be rejected.

Application to participate must be made through a local agency who will forward the registration request to the Italian Ministry of Health in the specific requested format.

**TWT srl** has been appointed by EASL as the sole agent to collect applications from pharmaceutical companies and file them with the Italian Ministry of Health for the International Liver Congress™ 2022.

Please contact:

**TWT srl**  
**Attn: Romina Baldolini**  
Ufficio Operativo  
Via Cagliari 13  
00198 ROMA  
e-mail: [rbaldolini@tw-team.it](mailto:rbaldolini@tw-team.it)

Note: medical device producers are not bound to present any application
